## May 2018 EXTRA

### Spring workshops in the Easter holiday

On 5th and 11th April our eurythmy room turned to a craft work shop. Two school parents, Jane Habib and Rebekka Calaby and German teacher Kristina Bitencourt ran two community activities during the Easter holiday. Children from 4 to 8 decorated Easter branches with butterflies from tissue paper, and bamboo bees made from little cones and hung with a golden thread, using natural materials and their imagination.

After a little snack break the children made spring clothes for the flower fairies and gnomes from colourful pieces of wool.

During the second work shop everything revolved around the Easter egg. First we made an origami box for our eggs and decorated it with tissue flowers and feathers. We brought a lot of boiled free range eggs and prepared different colours for dyeing. Some children discovered how to make a print of a parsley leaf on the dyed egg. Not every egg stayed lying in its cotton wool bed in the beautifully decorated box. Our real egg fans dined on one or two eggs immediately!

We were so pleased to run this activity and to find so much interest from parents of our and other schools.

With your help we have collected £ 128.50 for our school!

We are planning our next work shop for the 12th of May. Your ideas and participation in organisation are welcome! Every work shop starts with a beautiful story and has actually an open end, while parents could chat and children could play outside.

If you would like your child to join us next time, please contact Jane Habib ([janeh369@hotmail.com](mailto:janeh369@hotmail.com), Tel 07980 587 473) or Kristina Bitencourt ([krisbiten@gmail.com](mailto:krisbiten@gmail.com), Tel 07935450878). mnmnmn
